Allowable Subject Matter

Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 1-9, the cited prior art does not disclose, teach or suggest, alone or in combination, the claimed reusable pin support fixture which comprises: means for maintaining the foils in spaced apart relationship; a plurality of pins having a support end and a base end; the base end secured to the lower foil; and means for removably securing the pins in the lower foil.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments, see REMARKS section of Amendment, filed 1/9/06, with respect to independent amended claim 1 have been fully considered and are persuasive. The rejection of amended independent claim 1 has been withdrawn.

The Examiner agrees with Applicant's argument that Staiger (US 3,619,478) does not disclose, teach or suggest the claimed reusable pin support fixture which comprises: a plurality of pins having a support end and a base end; the base end secured to the lower foil; and means for removably securing the pins in the lower foil. Staiger's invention locks the pins.
